A MAJORITY FOR FREE SILVER.

Washington, Feb. 2.-Many Eastern Reublican senators are getting telegrams and letters from their constituents urg-ing them to stand by the president and lay aside party feeling and aid in passing lay aside party feeling and aid in passing a sound currency bill. This has impelled a canvass of the senate by several senators and they point out that the anti-silver men are in the minority. The canvass shows forty-seven for free colnage of silver and thirty-nine against. The admission of Tenators Wilson, of Washington, and Clarke, of Montana, will increase the free silver vote to 49. The following is the estimate of the free colnage and and Clarke, of Montana, will increase free silver vote to 49. The following to estimate of the free coinage and free coinage strength:

A POINT WELL TAKEN.

Democrats Being in the Minority in the Senate Cannot Longer Dictate

Business.
Washington, Feb. 2.—The Democratic private normal schools of the state are asking that their diplomas allow the hold-ers to teach in the public schools the same steering committee is having difficulty in reaching a conclusion on the order of bus-iness for the remainder of the session. The friends of the bankruptcy bill are John T. Fesler, president of the Stanberry normal school, is here to-day, and will remaking a strong effort to prevent it being displaced by any other measure than ap-propriation bills, while there is also a sharp conflict between the territorial bills main several days, to urge the passage of a measure of that kind. There are now three private normals in the state located sharp conflict between the territorial bills and the pooling for precedence when the bankruptey bill shall be disposed of. It was believed that the entire matter had been arranged on Thursday so that a proprogramme could be presented to the Republicans, but Senator Harris and others objected to the displacement of the bankruptcy bill and have so far succeeded in preventing an order for its summary dismissal. Senator Butler and others have contended for the allotment for the first time after the bankruptcy bill to the pooling bill instead of the territorial bills. These contentions have caused delay in reaching a conclusion which may not be smounded before the beginning of next week. In the meantime the Republican senators call attention to the fact that since Senator Mantle, of Montana, took his seat to-day the Democrats are no longer in the majority in the senate, their strength only being equal to that of the combined Republicans and Populiets, and they are therefore contending that the Democrats can no longer continue to distant the order of procedure in the senate, ting schools of this class on the same footing as the state schools, and the friends of these schools in the state will make a strong fight for state recognition.

Professor Feeler says there is not room enough in Northwest Missouri for a state normal. His school has 500 pupils and is in a healthy condition and he says that the records will show that the cost of those pupils per year is not as great as it would be if they were in attendance on a state normal. If his request for state recognition of the graduates of the Stanberry normal is greated, he is willing to make the course of study conform to that of the state normals, and he would be willing to concede a superintending care over 1 to the state.

OKLAHOMA LEGISLATURE.

Four bills passed both houses to-day and went to the governor, one appropriating \$1,000 to pay clerks, one defining contempt of court and providing for a trial by a jury, one allowing bail pending an appeal in criminal cases and one providing for payment of the debts of the original school townships.

POOLING BILL DEFEATED.

House Decides by a Large Majority to Re-

Washington, Feb. 2.-The Pacific callroad noon by a vote of 177 to 108, showing at inexpectedly large majority against the measure. Although the frift has been against the bill from the inception of the debate, its advocates were not without hope, even to-day. The extent of their defeat was a great surprise to both sides The debate to-day was of a brisk and live-ly character. Only three of the eighteen ections of the bill had been rend when the hour for taking the vote arrived. But the substantial amendment (to prevent the payment of dividends or the stock until the government debt should have been fully discharged) was adopted. Mr. Boatner's substitute to foreclose the government's mortgage in case of default was cut out by a parliamentary maneuver, so that when the voting began in the house tion submitted as an amendment to comomise the debt (aggregating \$150,000,000) r \$75,000,000, was defeated and as stated above the bill was sent to its doom by an overwhelming majority. The opponents of the measure signalized the victory with shouts of jubilation. The vote was as fol-

Scaate Proceedings.

The senate succeeded beday in making progress on the appropriation bill without being led into an extended financial debate. At one time it looked as though another financial disussion was imminent, when Mr. Hale, of Maine, Mr. Chandler, of New Hampshite, and Mr. Aldrich, of Rhode Island, made brief speeches denying the current reperts that these senators were purposely deliying appropriation bills in order to cut of financial legislation. These senators asserted that there was no such concerted purpose and that Republican senators atood ready to aid in advancing financial legislation. Mr. McPherson amounced that the resolution discharging the fenancial question before the senate, would be urged not later than Monday. Senate Proceedings.

C. P. Huntington, the Railroad Magnate, Thinks the Millennium Is Near.

San Francisco, Cal., Feb. 2.—It has been discovered that C. P. Huntington, the Southern Pacific magnate, has religious beliefs. The information became known through Rev. M. V. Donaldson, superintendent of the St. Paul's Mission church of this city. The doctrine taught at St. Paul's consists mainly in the belief that the millennium is near at hand. No definite date is agreed upon for its arrival, but some time in the year 1858 seems to be the favorite.

They were finally forced into court by the decision of Judge Slover. in which he held that a defeated candidate could contest the election of his opponent in the circuit court and that the law providing for contests was sufficient to compel the recorder of voters to open the ballot boxes and recount the ballots cast at the recent election or any other election. The Shannons and Marcy K. Brown, who were formerly besom friends, have been at outs for some time past. They do not greet each other as cordially as they used to do. While Marcy K. Brown has been making himself solid with the governor the Shannons have alifed themselves with the Francisites. It will be remembered by those who actively participated in the last campaign that Mr. Bremermann became a candidate for the Democratic nomination for prosecuting attorney at the solicitation of Joe Shannon. Frank G. Johnson, who is now Marcy K. Brown's first assistant, wanted the nomination and Marcy K. Brown wanted him to have it. Although Marcy K. Brown and Frank G. Johnson worked for the Democratic ticket they never forgave the Shannons for bringing out and nominating Mr. Bremermann. The men who have been the most active in pushing Mr. Bremermann's side of the contest are Francisites.

Another thing that figures in the settlement of the contest is the police commissionership contest. With Mr. Jamison in the prosecuting attorney's office and Mr. Brown retired to private life, the latter's influence at Jefferson City will doubtless be greatly diminished.

The proceedings in which Mr. Jamison was declared elected were had in the circult court yesterday before Judge Henry. Mr. Jamison left for Jefferson City last Charles E.
